

SENATE BILL No. 473

DIGEST OF INTRODUCED BILL

Citations Affected: IC 14-8-2-180; IC 14-25-7-12.5.

Synopsis: Voluntary monitoring of water resources. Requires the department of natural resources (department) to establish a program under which volunteers may monitor the water resource (which, as defined in IC 14-25-7, includes both ground water and surface water) and provide monitoring data to the natural resources commission and the department. Provides that the department shall: (1) train the volunteers participating in the program in the proper collection and transmission of data; (2) determine the location and ensure the adequacy of the monitoring wells used in the program; and (3) conduct water resource monitoring independent of the program to verify the quality of the data derived from the program. Requires the department, in selecting the areas in which volunteers will monitor the water resource through the program, to give priority to areas in which temporary failures of nonsignificant ground water withdrawal facilities have been confirmed and areas in which the potential exists for ground water withdrawals to exceed the natural replenishment of the aquifer.

Effective: July 1, 2015.
